

Accelerating Indiana Innovation and Job Growth

Indiana Companies to Watch celebrates second-stage businesses and their contributions to the U.S. economy.

Entrepreneurs, who are a critical source of innovative products, technologies and sustainable new jobs, have become more important than ever.

Now in its second year, Indiana Companies to Watch honorees represent 17 different counties and a wide variety of industries. The 50 awardees profiled in this section are privately owned firms that have advanced beyond the start-up phase. They employ six to 150 full-time equivalent workers each and generate annual revenue or working capital of \$750,000 to \$100 million.

Awardees were selected by a panel of judges convened by the Indiana Economic Development Corp., its Small Business Development Center Network, Purdue University and the Edward Lowe Foundation, who have collaborated to present the event. Among judging criteria, awardees are recognized for past and projected growth, innovative products or business practices, special use of technology and philanthropic work in their communities.

In addition to new jobs, Companies to Watch honorees are also creating new products, services and technology – innovation that gives Indiana a competitive edge in the global arena.
