### The New CTW Class: Vital Contributors to State's Economy

A unique awards program now in its fifth year, Indiana Companies to Watch celebrates second-stage businesses and the positive impact they have on their communities and the state.

The 25 honorees profiled in this section are privately owned firms that have advanced beyond the start-up phase and are focused on steady, sustainable growth. They employ six to 150 full-time equivalent workers and generate annual revenue or working capital of \$750,000 to \$100 million.

Companies were selected by a panel of judges convened by the Indiana Economic Development Corporation, its Small

Business Development Center and the Edward Lowe Foundation. Among judging criteria, awardees are recognized for past and projected growth, innovative products or business practices, special use of technology and philanthropic work in their communities.

A diverse group of entrepreneurs, this year's honorees come from both rural and metropolitan areas and represent a dozen different industries. In addition to new jobs, Companies to Watch awardees are also creating new products, services and technology – innovation that gives Indiana a competitive edge in the global arena.
