What's it going to take for meaningful township reform to happen? In today's blog, our Bill Waltz highlights more township bad actors embezzling funds (thx @rtv6) and promotes our new fact sheet, Can We Afford Township Government? <http://bit.ly/2TsWLCE>

@POTUS thankfully suspended the rule. Glad to see @SenatorBraun now seeking congressional action to define what should qualify under #WOTUS (link: <https://bit.ly/2yEgCF7>) bit.ly/2yEgCF7 #Congress

#INLegis, take note. Yesterday, Ohio @GovMikeDeWine signed the state's budget bill into law that includes a provision raising the state's #smoking and vaping age from 18 to 21. <http://bit.ly/2Z3Pc6D> #Tobacco21

In the highly regarded America's Top States for Business rankings, Indiana places 11th overall. It earns the No. 1 spot for infrastructure & a mysterious 44th place for quality of life (perhaps the voters should come for a visit!). Virginia is the top state. In tribute to two Hoosier icons of the @USSenate, our annual honor to the government official who has bettered the state's biz climate will now be known as the Birch Bayh and Richard Lugar Government Leader of the Year award.
